Support vulnerable communities in Maldives to manage climate change-induced water shortages Project

Request for Proposal

Advertisement: Consultancy service for formulation of design criteria and technical specifications for designing drainage and flood management systems in the Maldives using Sustainable Drainage System (SuDS) and Manage Aquifer Recharge (MAR) principles

The Government of Maldives has received a grant from Green Climate Fund (GCF) for the project “Supporting vulnerable communities in Maldives to manage climate change-induced water shortages”, which is being jointly implemented by the Government of Maldives and UNDP. Through this project safe and adequate water supply systems will be developed in 49 islands by means Integrated Water Supply Network and Rainwater Harvesting Systems. Apart from the infrastructure components, the project also focuses on strengthening the water and sanitation sector.

In this regard, that the Ministry of Environment through the Green Climate Fund project “Support vulnerable communities in Maldives to manage climate change-induced water shortages”. The Government intends to apply part of the proceeds towards procuring the services of **Consultancy service for formulation of design criteria and technical specifications for designing drainage and flood management systems in the Maldives using Sustainable Drainage System (SuDS) and Manage Aquifer Recharge (MAR) principles**
