Answers to questions received with reference to Announcement Number (IUL)88-BTR/88/2025/338 dated 20th July 2025,

Consultancy for Updating the National Inventory Report
31st July 2025

Please find below answers for clarification for the above bid.

#	Clarification required	Answer
1	The deliverable mentions "Report on emissions from IPPU sector (F-gases) and methodologies for improvements", however IPPU sector emissions have not been included in the BTR1 submission. Therefore, would like to clarify, would the task include carrying out emissions calculation from IPPU sector for CRT or identifying improvement steps to include IPPU sector emissions in future inventories?	The task includes an assessment of emissions potential from F-gases in the Maldives, available data, data gaps, bridging the data gaps for GHG emissions estimations and steps to include the emissions from this sector in future inventories.
2	Request for extension of two additional weeks to the submission deadline	Unable to extend the current submission deadline due to limitations in the overall project timeline.
