Introduction and Background

The project “Strengthening National Policy to Reduce Single-Use Plastic in the Maldives”, implemented by the Ministry of Tourism and Environment with support from and funded by BRS/UNEP, aims to strengthen national capacity to manage plastic waste.

The project contributes to the implementation of the Single-Use Plastic (SUP) Phase-Out Plan developed by the Government of the Republic of Maldives and supports the National Awareness Campaign to reduce single-use plastics. It also aligns with the Strategic Action Plan (2020–2023), which aims to reduce the import, production, and use of single-use plastics.

The first phase of the SUP ban commenced in June 2021, under which 12 single-use plastic products have been banned as of January 2024 in accordance with the Waste Management Act. The phase-out plan focuses on reducing and discouraging the consumption of single-use plastics by introducing market-based policy instruments and promoting sustainable alternatives through education and awareness.

As the Maldives moves towards the second phase of the plan, supporting businesses to transition away from single-use plastics is a key step. Therefore, the Ministry is seeking an individual consultant to develop a Business Toolkit that will guide businesses in identifying, planning, and implementing actions to eliminate single-use plastics and adopt sustainable alternatives.

Objective

The main objective of this consultancy is to develop a Business Toolkit on Eliminating Single-Use Plastics (SUPs) to guide and support businesses in transitioning towards sustainable, plastic-free operations in alignment with the Maldives’ Single-Use Plastic Phase-Out Plan.

- 1) Identify target groups that are likely to be affected by the SUP phase-out plan**
- 2) Identify and analyse current business practices related to SUP use**
- 3) Develop a comprehensive Business Toolkit for SUP elimination and promotion of sustainable business models**

Note:

- Information should be collected mainly through desk reviews and at least ONE focused stakeholder consultation workshop or meeting coordinated with the Ministry.
- The toolkit should be practical, easy to use, and visually clear so that businesses can adopt the recommendations without extensive technical knowledge.

Scope of Assignment

The tasks to be undertaken by the consultant are to be conducted in close collaboration with the Waste Management and Pollution Control Department (hereinafter “Department”) of the Ministry of Tourism and Environment (hereinafter “Ministry”), and relevant stakeholders as necessary, and include but are not limited to, the following:

- Inception report
 - Conceptual framework
 - Methodology
 - Work plan and Timeline
- Conduct desk reviews to identify the businesses that are likely to be affected by the SUP Phase-out Plan
- Conduct desk reviews and stakeholder consultation(s) to analyze current business practices related to SUP use
- Maintain regular communication via email or meetings with the Ministry to identify and finalize the design of the business toolkit
- Submit the draft Business Toolkit document
- Present the findings of the research to the Department
- Conduct a validation workshop with relevant stakeholders
 - Validate the findings
 - Discuss best approach to disseminate them
- Submit final Business Toolkit document
