Ministry of Tourism and Environment

Capacity Strengthening for Improved
Transparency of Climate Change
Mitigation and Adaptation Actions in
the Maldives Project (CBIT Maldives)

This document was developed under the project “Capacity Strengthening for Improved Transparency of Climate Change Mitigation and Adaptation Actions in the Maldives (CBIT Maldives)”, financed by the Global Environment Facility (GEF).

The project is executed by the Ministry of Tourism and Environment, with implementation support from the United Nations Environment Programme (UN Environment)

December 2025

Report Prepared By:

Maldives Bureau of Statistics (MBS) In collaboration with
CBIT Maldives Project Coordination Unit

2. Changes Made to the Survey Form	4
3. Launching of the Updated Survey Form.....	6
4. Dissemination Workshop	8
Annex 1: Original Tourism Statistics Survey Form	10
Annex 2: Updated Tourism Statistics Survey Form.....	11

1. Introduction

Tourism is the largest economic sector in the Maldives, contributing significantly to national GDP, foreign exchange earnings, employment, and infrastructure development. Given its scale and energy demands, the tourism sector also plays a vital role in the country's climate change mitigation and adaptation efforts, particularly in the compilation of national greenhouse gas (GHG) inventories. However, the lack of consistent, disaggregated, and energy-specific data from the tourism sector has been a barrier to accurately tracking emissions and designing effective climate policies.

Recognizing this gap, the Ministry of Tourism and Environment (MOTE), Maldives Bureau of Statistics (MBS), and the Utility Regulatory Authority (URA), with support from the "Capacity Building for Improved Transparency of Climate Change Mitigation and Adaptation Actions in the Maldives" (CBIT Maldives) Project, undertook a collaborative initiative to enhance tourism sector data collection mechanisms. This collaboration ensures that energy use information is collected consistently and sustainably, supporting national climate transparency commitments under the Enhanced Transparency Framework (ETF) of the Paris Agreement.

The CBIT Maldives project is funded by the Global Environment Facility and implemented by the Ministry of Tourism and Environment with support from the United Nations Environment Programme.

This report outlines the key milestones achieved under Output 1.3 of the CBIT Maldives Project, specifically addressing the two deliverables:

- Deliverable 1.3.1: Updating the annual resort survey to include energy-related data and enhancing the Maldives Bureau of Statistics' electronic data systems.
- Deliverable 1.3.2: Conducting a dissemination and training workshop on the updated survey and its data collection processes.

2. Changes Made to the Survey Form

To address gaps in the availability of energy-specific data from the tourism sector, the MOTTE, MBS, and the URA initiated a series of technical consultations under the CBIT Maldives Project. These consultations began in early 2024 and included targeted discussions with the Climate Change Department and Energy Department of MOTTE, as well as with officials from MBS and URA.

Given the success of MBS in collecting tourism data through its voluntary Tourism Statistics Survey, it was selected as the most appropriate mechanism to strengthen data availability on energy use in the sector. The objective was to assess and implement the necessary changes to the existing survey form to align it with national GHG inventory requirements.

Following these consultations, a Memorandum of Understanding (MoU) was signed on 6th November 2024 between MOTTE, MBS, and URA. This agreement formalized the collaborative efforts to enhance the Tourism Statistics Survey by incorporating new modules focused on energy generation, consumption, fuel types, and energy storage capacities at resort facilities.

It was agreed that Chapter 4: Production/Consumption of the existing survey form would be revised to include the following additions:

- Electricity Generation and Consumption Data, disaggregated by source (diesel, solar, other renewables).
- Fuel Usage and Inventory, including diesel, petrol, LPG, and other types across various resort operations.
- Electricity Supply Capacity, such as installed solar PV (rooftop, floating, ground-mounted), diesel generator capacity, and battery storage.
- Water Production and Consumption, categorized by source and generation method.
- Monthly Disaggregation of electricity and water data to improve seasonal trend analysis.

Annex 3 presents the original version of the survey form, while Annex 4 contains the updated version incorporating these changes.

Following the signing of the MoU, the CBIT Maldives Project supported the implementation of the necessary changes to the MBS Resorts Survey, including technical revisions to the form and enhancements to the online survey platform.

Figure 1 The MOU was signed by Minister of Tourism and Environment (MOTE), H.E Thoriq Ibrahim, on behalf of MOTE and the Utility Regulatory Authority, and Dr. Ali Haidar Ahmed, Minister of Housing, Land, and Urban Development, on behalf of the Maldives Bureau of Statistics¹

Figure 2 Group photo taken following the MoU signing ceremony on 6th November 2024, with officials from the Ministry of Tourism and Environment (MOTE), Maldives Bureau of Statistics (MBS), and the Utility Regulatory Authority (URA).

3. Launching of the Updated Survey Form

The Tourism Statistics Survey 2024 was officially launched on 17th December 2024 by Dr. Muaviyath Mohamed, Minister of State for Tourism and Environment, during a ceremony organized by the Maldives Bureau of Statistics (MBS) in collaboration with the Ministry of Tourism and Environment (MOTE).²

The launch event was attended by key stakeholders, including representatives from government institutions, statistical experts, and policy advisors. The event marked an important milestone in the CBIT Maldives Project's efforts to improve data quality and transparency in the tourism sector.

The updated Tourism Statistics Survey 2024 reflects an expanded scope by incorporating new modules on energy production and consumption, in addition to existing sections on human resources, finance, and operations.

Figure 3 Dr. Muaviyath Mohamed, Minister of State for Tourism and Environment, delivering remarks at the launch of the Tourism Statistics Survey 2024, held on 17th December 2024.

Figure 4 Ms. Aishath Hassan, Chief Statistician of the Maldives Bureau of Statistics (MBS), addressing participants during the launch ceremony of the Tourism Statistics Survey 2024, on 17th December 2024.

4. Dissemination Workshop

To ensure understanding and uptake of the updated survey, a Dissemination and Training Workshop was conducted on 17th December 2025. The workshop focused on:

- Presenting the updates made to the Tourism Statistics Survey form,
- Sharing key findings from the 2023 Tourism Statistics Survey, and
- Providing a section-by-section walkthrough of the 2024 updated survey form.

A presentation on the national greenhouse gas (GHG) inventory and the role of the tourism sector was delivered by Ahmed Masoon, Programme Officer from the Climate Change Department of the Ministry of Tourism and Environment. This presentation outlined how tourism sector energy data contributes to national emissions estimates and supports Maldives' transparency and reporting obligations under the Paris Agreement.

Figure 5 Group photo of participants at the Dissemination Workshop on the updated Tourism Statistics Survey 2024, held on 17th December 2025, with attendees from tourism establishments, government agencies, and industry associations.

A total of 30 participants took part in the workshop. Attendees included representatives from several tourism establishments, such as Constance Moofushi Resort, Atmosphere Kanifushi Resort, Coco Collection (operating Coco Bodu Hithi Resort and Coco Palm Dhuni Kolhu), Embudu Village Resort, Waldorf Astoria Maldives Ithaafushi, Bathala Resort, and Baros Maldives. In addition, key industry associations—including the Maldives Association of Travel Agents and Tour Operators (MATATO) and the Maldives Association of Tourism Industry (MATI)—were represented, ensuring broad engagement with

stakeholders across the tourism sector. Government officials from the Climate Change Department and Tourism Department of the Ministry of Tourism and Environment, the Waste Management Corporation Limited (WAMCO), and the Maldives Bureau of Statistics (MBS) also attended the workshop, contributing to the multi-agency dialogue on improved sectoral data.

The Tourism Statistics Survey 2024 is currently underway, and resorts, hotels, guesthouses, and safari vessels are requested to submit their survey responses through the official online platform at:

 <https://tourismsurvey.stats.gov.mv/>.

Annex 1: Original Tourism Statistics Survey Form

Fill the form

- 1Establishment
- 2Operations
- 3Employment
- 4Prod/Cons
- 5Income
- 6Expenses
- 7Stock/Inventory

1. Establishment Information

Establishment is an enterprise or part of an enterprise with a fixed premises or a name board in which the principal productive activity accounts for most of the value added. Detail related to establishment including name, legal type, owner etc.

1. Resort Name

Please Select

2. Who is providing the information for this resort?

Please enter the name of the person filling the form.

Name

3. Contact number of the information provider?

7777777

4. What is the legal type of the organisation?

Please select

5. What is the name of the operator?

Only for Establishment under a company

Operators name

6. What is the Registration Number of the operator?

Only for Establishment under a company

Registration Number

7. What are the name of the owners of this resort?

List up to 2 owners, except for soletrade. If under a parent company, record owner of the resort if different, otherwise the owner of parent company

Name of the owner 1

Name of the owner 2

8. Contact number of Operator

If more than one take of the main operator.

7777777

9. Email of Operator

If more than one take of the main operator.

email@example.com

10. Share of Ownership of operator (End of the year 2022)

Maldivian Government Share %

%

Maldivian Share %

%

Foreign Share %

%

11. What is the Taxpayer Identification Number?

TIN

12. When was this establishment get registered?

mm/dd/yyyy

13. Registered Bed Capacity (End of the year 2022)

Registered Bed Capacity

Fill the form

- 1Establishment
- 2Operations
- 3Employment
- 4Prod/Cons
- 5Income
- 6Expenses
- 7Stock/Inventory

2. Operations

Information about the months of operation and capacity of the establishment.

1. Months in operation during 2022

☐ January ☐ February ☐ March ☐ April ☐ May ☐ June ☐ July ☐ August ☐ September ☐ October ☐ November ☐ December

2. How many rooms in total did resort have at the end of 2022?

Rooms at the end of 2022

3. How many beds in total did resort have at the end of 2022?

Beds at the end of 2022

4. In 2022,what was the number of total room nights sold and occupied?

Beds Nights 2022

5. In 2022, What was the total number of bed nights sold?

Beds Nights 2022

6. In 2022, What was the average annual room rate per night? (MVR)

Room Rate per Night (MVR)

< Previous step

Next >
