FINANCIAL SITUATION EVALUATION

Bank statement of the business's bank account. To be eligible the business's bank statement (Bank statements covering a minimum period of three (3) months prior to the bid opening date shall be submitted) must show a credit balance of minimum **MVR 35,000.**

(or)

If bidding party is unable to meet any of the above requirement they shall submit 'Line of Credit Letter' As per the template in FIN FORM 2. Credit limit shall be no less than **MVR 35,000. – (FIN FORM -2: Line of Credit Letter)**

Financial Score:

The formula for determining the financial scores is the following:

$S_f = 100 * F_m / F$, in which S_f is the financial score, F_m is the lowest price and F is the price of the proposal under consideration.

The weights given to the Technical and Financial Proposals are:

$T = [0.6]$, and $F = [0.4]$

Note:

- Line of Credit Letter must be issued by a government recognized bank or financial institution established in Maldives with all the details as per template in FIN FORM 2

PRIORITY TO MSME'S

Below MVR 2,500,000

Among bidders who pass the technical and financial evaluation, Micro, Small and Medium Enterprises (MSME's) will be assessed accordingly: The bidder with the highest ranking with a proposed price that doesn't exceed 15% of the price of the bidder with the overall highest ranking will be awarded.

Among bidders who pass the technical and financial evaluation if there is no bidder as described in (a), bidders who belong to the same island as the project is carried out will be assessed accordingly: The bidder with the highest ranking with a proposed price that doesn't exceed 10% of the price of the bidder with the overall highest ranking will be awarded.

Among bidders who pass the technical and financial evaluation if there is no bidder as described in (a) and (b), bidders who belong to the same atoll as the project is being carried out is checked and assessed accordingly: The bidder with the highest ranking with a proposed price that doesn't exceed 5% of the price of the bidder with the overall highest ranking will be awarded.

Among bidders who pass the technical and financial evaluation if there is no bidder as described in (a), (b) and (c), all Maldivian bidders will be checked and assessed accordingly. The bidder with the highest ranking with the lowest proposed price will be awarded

Among bidders who pass the technical and financial evaluation if there is no bidder as described in (a), (b), (c) and (d) all bidders will be assessed accordingly. The bidder with the highest ranking with the lowest proposed price will be awarded

Above MVR 2,500,000 – MVR 5,000,000

(a) Among bidders who pass the technical and financial evaluation, those bidders who belong to the same island as the project is carried out will be assessed accordingly: The bidder with the highest ranking with a proposed price that doesn't exceed 10% of the price of the bidder with the overall highest ranking will be awarded

(b) Among bidders who pass the technical and financial evaluation if there is no bidder as described in (a), bidders who belong to the same atoll as the project is being carried out is checked and assessed accordingly: The bidder with the highest ranking with a proposed price that doesn't exceed 5% of the price of the bidder with the overall highest ranking will be awarded.

(c) Among bidders who pass the technical and financial evaluation if there is no bidder as described in (a) and (b), all Maldivian bidders will be checked and assessed accordingly. The bidder with the highest ranking with the lowest proposed price will be awarded.

(d) Among bidders who pass the technical and financial evaluation if there is no bidder as described in (a), (b) and (c), all bidders will be assessed accordingly. The bidder with the highest ranking with the lowest proposed price will be awarded.

CRITERIA ON CLASSIFYING REGIONAL BASED BUSINESS

a) Check the bidders permanent address, if the bidder is a sole proprietorship

b) Check the island to which the business is registered, if the bidder is not a sole proprietorship

c) The bidder will be considered as a business working in one certain area, as per (a) and (b) accordingly:

- If the bidder is a sole proprietorship, the bidder's registered permanent address as of 1st January of the year the invitation for bid was issued will be considered OR

- If the business had been registered before the year in which the invitation for bid was issued, the island to which the business was registered as of 1st January of the year the invitation for bid was issued will be considered

OR

If the business had been registered within the year in which the invitation for bid was issued, the island to which the business was first registered will be considered.

ADDITIONAL INFORMATION

Ministry of Tourism and Environment has overall responsibility for the management of the contract and contractual reporting obligations.

Documents and data provided by the government for the purpose of this assessment, which is not of public nature shall be considered confidential and should not be disclosed to any other party.

All outputs and materials produced as part of this TOR shall be handed over to the project at the end of the contract and will become the sole property of Ministry of Tourism and Environment.

Introduction and Background

The Maldives is a small island nation characterized by low-lying atolls with extremely limited freshwater resources. The country receives considerable annual rainfall, ranging from 1,700 to 2,300 mm, which recharges shallow groundwater aquifers that exist as thin freshwater lenses floating over seawater. These aquifers, typically only one to two meters below the surface, alongside harvested rainwater, constitute the primary natural freshwater sources for the country. The country has no rivers or lakes, with the exception of a few mangroves and wetlands with fresh or brackish water on some islands.

Despite the presence of these natural resources, water scarcity is a growing concern. The freshwater lenses are highly vulnerable due to the islands' porous sandy soils, which make them prone to saltwater intrusion from sea-level rise, storm surges, and flooding. Excessive groundwater extraction has further undermined recharge processes, leading to salinization and reduced quality. In addition, groundwater contamination has been aggravated by improper waste disposal, poor sanitation systems, and the long-term impacts of the 2004 Indian Ocean tsunami, rendering much of it unsuitable for potable use.

Rainwater harvesting remains the most widely used method for securing drinking water at the household and community levels. However, reliance on rainwater makes communities highly dependent on rainfall patterns. During the northeast monsoon (December–April), when rainfall is limited, storage tanks often run dry. This dry season has become increasingly unpredictable due to climate variability, further straining household and community water supplies. In many instances, this has resulted in reliance on costly emergency water supply from Malé to outer islands. While the Government of Maldives is implementing desalination and piped distribution systems as a long-term solution, these approaches are expensive and energy-intensive, underscoring the need for complementary strategies to conserve and manage natural water resources.

The scarcity of safe freshwater is compounded by the strong interdependence of water, sanitation, and hygiene (WASH) services. Untreated wastewater and overextraction of aquifers continue to threaten freshwater ecosystems, reduce water quality, and heighten vulnerabilities across island communities.

To overcome these challenges, national frameworks—including the National Water and Sewerage Strategic Plan (2020–2025), the Water and Sewerage Act (Law No. 8/2020), and the Water Resources Protection Regulation—have emphasized the importance of island-level water conservation and management. The development of Island Water Resource Conservation and Management Plans (IWRCMPs) is therefore essential. These plans provide a structured

mechanism for data collection, monitoring, and decision-making, ensuring that water resources are managed sustainably for present and future generations.

The Government of Republic of Maldives, represented by the Ministry of Tourism and Environment intends to use the funds from SWA Technical Assistance Grant to hire a CONSULTANCY FIRM to develop IWRCMP for N.Henbadhoo.

Objective

The main objectives of the assignment are:

- To assess current water sources, systems, and usage patterns, and identify challenges and risks.
- To engage the local community and stakeholders to ensure the plan reflects their needs and priorities.
- To provide practical, sustainable, and climate-resilient recommendations aligned with national policies.

To develop a comprehensive Island Water Resource Management Plan for N. Henbadhoo.

Scope of Assignment

Task 1: Inception Phase

- 1- Review the IWRCMP guidebook, planning templates, and relevant national policies and regulations.
- 2- Establish an island water resource management team and conduct initial coordination meetings with the Ministry of Tourism and Environment, and the N. Henbadhoo Island Council.
- 3- Prepare an Inception Report, including methodology, stakeholder engagement strategy, and work plan.

Task 2: Data Collection and Draft IWRCMP

- 1- Map and document island water resources, including:
 - Rainwater harvesting systems (household and community-level)
 - Reverse osmosis (RO) plants
 - Groundwater wells and community tanks
 - Agricultural and commercial water systems
 - Mangroves and other water bodies (if present)
- 2- Identify sampling criteria based on household numbers and island geography.
- 3- Complete water resource templates, identifying potential biological, physical, and chemical hazards for each resource, as well as the current status.
- 4- Develop individual management forms for each resource, recommending both short-term and long-term interventions to improve water quality and sustainability.

5- Consolidate findings into a draft IWRCMP template for N.Henbadhoo.

Task 3: Finalization and Handover

- 1- Present the draft plan to island stakeholders and government authorities for consultation and feedback.
- 2- Revise and finalize the IWRCMP, incorporating stakeholder and technical review comments.

Submit the final IWRCMP along with all supporting datasets and documentation.

Requirements for Experience and Qualifications

Team Leader

- Degree/Diploma in Social Work, Project Management, Business Management, Environmental Science, Surveying, or a related field; OR minimum 1 year of proven experience in the implementation of social programmes, island development programmes, awareness programmes.
- Trainings or Previous experience that show knowledge and understanding of natural resources, surveying, water resource management, and climate change adaptation will be an added advantage.
- Experience in leadership, management, and communication skills, particularly in coordinating and managing multidisciplinary teams.
- Experience in engaging with local councils, NGOs, CBOs, and community stakeholders to ensure participatory and inclusive planning.

Trainings or Previous experience that show strong report writing, analytical, and facilitation skills, with the ability to deliver outputs in Dhivehi.

Supporting Member 01, 02 and 03

- Degree/Diploma in Social Work qualification in Project Management, Environmental Studies, Social Science, or related field; OR minimum 1 year of proven experience in supporting island-level or community-based projects.
- Trainings or Previous experience that show knowledge and understanding of natural resources, surveying, water resource management, and climate change adaptation will be an added advantage.
- Trainings or Previous experience that show familiarity with the Maldives' local context and ability to work effectively with communities.
