

**Ministry of Environment, Climate Change and Technology
Republic of Maldives**

**Recruitment of Individual Mitigation Expert for Preparation for Technology Needs
Assessment (TNA) to the United Nations Framework Convention on Climate Change**

TERMS OF REFERENCE

1. BACKGROUND

Ministry of Environment, Climate Change and Technology (MECCT) in partnership with the UNEP-DTU is currently implementing a project titled, Preparation of Technology Needs Assessment (TNA) under United Nations Framework Convention on Climate Change (UNFCCC) for the Republic of Maldives.

The current Global TNA project, deriving from window (i) of the Strategic Program on Technology Transfer, is designed to support countries to carry out improved Technology Needs Assessments within the framework of the UNFCCC.

The purpose of the TNA project is to assist participant developing country Parties identify and analyse priority technology needs, which can form the basis for a portfolio of environmentally sound technology (EST) projects and programmes to facilitate the transfer of, and access to, the ESTs and know-how in the implementation of Article 4.5 of the UNFCCC Convention. Hence TNAs are central to the work of Parties to the Convention on technology transfer and present an opportunity to track an evolving need for new equipment, techniques, practical knowledge and skills, which are necessary to mitigate GHG emissions and/or reduce the vulnerability of sectors and livelihoods to the adverse impacts of climate change. The main objectives of the project are:

To identify and prioritize through country-driven participatory processes, technologies that can contribute to mitigation and adaptation goals of the participant countries, while meeting their national sustainable development goals and priorities (TNA).

1. To identify barriers hindering the acquisition, deployment, and diffusion of prioritized technologies.
2. To develop Technology Action Plans (TAP) specifying activities and enabling frameworks to overcome the barriers and facilitate the transfer, adoption, and diffusion of selected technologies in the participant countries.
3. Further, the TNA process will develop Concept Notes for attracting funding to implement selected technologies in priority areas of national relevance.

In this regard, the MECCT is seeking an **Mitigation Expert** to assist the preparation of the TNA.

2. OBJECTIVES OF ASSIGNMENT

The primary responsibility of the expert is to support and facilitate the TNA process, for the execution of activities in relation to climate change Mitigation in the sectors, under the direct supervision of the National TNA Coordinator, and the national TNA team, including other expert consultants for the TNA project. In relation to the project work plan (see section 5), it is expected that the project work will be completed by May 2023. The candidate should be highly motivated, enthusiastic, and able to work independently. He/she should have a strong background on climate change or related matters. The ability to work with a variety of people from governments, agencies, non-governmental organizations, and research institutions is essential.

3. OVERALL TASKS

Consistent with domestic and global objectives, the Mitigation Expert will be responsible for providing the national TNA teams with the process-related and methodological/technical advisory services needed for developing Technology Action Plans (TAPs) at the country level. The role of the Mitigation Expert will thus be to lead and undertake activities such as research, analysis and synthesis for the identified sectors in support of the TNA exercise and in close collaboration with the TNA teams. The Mitigation Expert will apply a participatory approach to the TNA process, involving a wide range of stakeholders while ensuring a multi-sector and multi-disciplinary scope. Moreover, the Mitigation Expert will facilitate the tasks of communication with the national TNA team members, outreach to stakeholders, formation of networks, information acquisition, and coordination and communication of work products. The Expert Consultant will be required to use best practices, guidelines, methodologies and technical guidance available through the UDP and other approved sources.

4. TASKS OF THE MITIGATION EXPERT

The scope of the assignment will include but will not be limited to the following:

1. In association with TNA Coordinator, organizing consultative stakeholders' meetings and workshops (inception, TNA Validation, and TAP finalization/validation), in close collaboration with the TNA Project Coordinator.
2. Identification and prioritization of technologies for the Mitigation sectors through a participatory process with a broad involvement of relevant stakeholders, including;
 - a) identification and link-up with relevant stakeholders and facilitation of the sector working groups to be set-up,
 - b) identification of institutions for data and other support, and
 - c) collecting, analyzing and synthesizing information and data to prepare technology fact sheets for the sector.
3. leading the process of analysing with the Mitigation stakeholder groups how the prioritized technologies can be implemented in the Maldives and how implementation circumstances could be improved by addressing the Barriers and developing an

Enabling Framework (BAEF) based, inter-alia, on undertaking of local market and other assessments, as may be required;

4. Prepare and finalize the TNA, BAEF and TAP reports, with project ideas, and advocacy and policy briefs, and with inputs of stakeholders included.
 - a) Prepare working papers and other TNA-related documents as may be required to ease the consultative process and harnessing inputs from stakeholders during meetings, workshops, amongst others.
5. Provision of any other inputs, as may be required, relevant to related part of the TNA process and output targeted as may be requested by the TNA Coordinator of the Ministry, the UNEP DTU Partnership (UDP), Regional Centers and the national sectorial/TNA Committee.

5. KEY DELIVERABLES

The Mitigation Expert should provide the following deliverables in accordance to the specified timeline.

#	Deliverable	Timeframe
1	Proposed methodology of work and work plan	August 2021
2	Portfolio of technologies for the sector (long list and short list of technologies)	October 2021
3	TNA report, containing prioritized list of technologies and describing the process followed, for the sectors	April 2022
4	Report on Barrier Analysis and Enabling Frameworks for development, deployment and diffusion of priority technologies in the sectors;	April 2022
5	Technology Action Plan based on format agreed for the project	October 2022

6. QUALIFICATION CRITERIA

The Mitigation Expert should have knowledge, skills and previous experience as follows:

1. Masters in environmental science or management or climate change, or other related fields
2. Extensive knowledge of - and experience with - climate change Mitigation strategies (as relevant), technologies and policies at the national level.
3. Familiar with national development objectives and relevant sector policies have overall insights in climate change science, and potential climate change impacts, as well as Mitigation needs for the country in the relevant sector.
4. Demonstrated ability to manage project activities
5. Excellent inter-personal, communication and negotiating skills
6. Ability and willingness to travel within and outside the Maldives
7. Demonstrable skills in office computer use - word processing, spread sheets etc.
8. Excellent verbal and written skills in Dhivehi and English and demonstrated ability to work in a team.

7. REPORTING

1. The Mitigation Expert will report directly to the Project Coordinator or person designated by Ministry.
2. The Mitigation Expert is expected to work closely with others experts or consultants hired under the project.
3. The Mitigation Expert is expected to work on intermittent basis; however, he/she should require to be available for the performance of the tasks and delivery of the required outputs.
4. The Mitigation Expert shall be available for the timely delivery of milestones relevant to the specified tasks over the duration of the project, as required by the TNA Coordinator.

8. CONTRACT DURATION

The contract duration will be a maximum of **12 months** from the commencement of the assignment.

9. PAYMENT

Payments will be issued on deliverable basis. The consultant is expected to submit a financial proposal for the consultancy.

10. SELECTION CRITERIA

The candidates will be selected based on the following criteria.

Criterion	Sub Total	
Stage I		
Academic Qualifications		20
Master's degree in environment science/management, climate change or other related fields	20	
Professional Experience in experience with - climate change Adaptation strategies (as relevant), technologies and policies at the national level		40
<ul style="list-style-type: none">• At least 5 years of relevant experience at the national or international level in undertaking assessments on climate change aspects	15	
<ul style="list-style-type: none">• Must have demonstrated experience and abilities to pro-actively lead and coordinate a stakeholder, including strong interpersonal skills with ability to multi-task and maintain effective work relationships with diverse range of institutional partners and undertake complex assignments 5 points per assignment (up to 5 assignments)	25	
Financial Proposal		40
The proposal with the Lowest Financial Quote (Fq) will get the maximum Financial Score (Sf) of 40 points. The Financial Scores (Sf) of the other Financial Proposals will be computed according to the following formula: $Sf = 40 \times Fq / F$, in which Sf is the financial score, Fq is the Lowest Financial Quote received and F is the price of the proposal under consideration.		

	Total Points	100

11. APPLICATIONS

Interested consultants may submit the **expressions of interest** with the following.

- Letter of Expression of Interest
- Detailed CV of the consultant (required experiences and other experiences relevant to this TOR must be specified clearly or highlighted in the CV)
- Copies of educational qualifications
- Valid reference letters indicating relevant assignments carried out in the past
- Total cost of the assignment with cost breakdowns for all assignments as indicated in the deliverables
- Business Registration under Ministry of Economic Development under sole proprietorship
- expressions of interest must be valid for a period of 90 calendar days from the date of bid opening

12. ADDITIONAL INFORMATION

- The TNA PMU has overall responsibility for the management of the contract and contractual reporting obligations
- Documents and data provided by the government for the purpose of this assessment which is not of public nature shall be considered confidential and should not be disclosed to any other party.
- All outputs and materials produced as part of this TOR shall be handed over to the TNA-PMU at the end of the contract and will become the sole property of MECCT
- For the Stakeholder Consultation: invitation, catering and venue will be financed directly by the project. This cost should NOT be included in the price quotation.

13. QUERIES

For any queries please email to procurement@environment.gov.mv and CC to climate@environment.gov.mv before 1100hrs on 17 June 2021. Answers will be provided to all the queries received before the deadline and will be made available via the Ministry website (www.environment.gov.mv).

14. SUBMISSION

Proposals must be delivered in sealed envelopes titled – ‘**Recruitment of Individual Mitigation Expert for Preparation for Technology Needs Assessment (TNA) to UNFCCC**’ and the submitting party’s name and address to the address below before **1100 hours of 23rd June 2021** local time. Electronic submission is not permitted. Late proposals will be rejected. Proposals will be opened on **23rd June 2021 at 1100 hours** in the presence of the proponents’ representatives who choose to be present at the address below at the time of proposal opening.
